

YOUR HIRING PARTNER FOR SERVICENOW & DIGITAL TRANSFORMATION

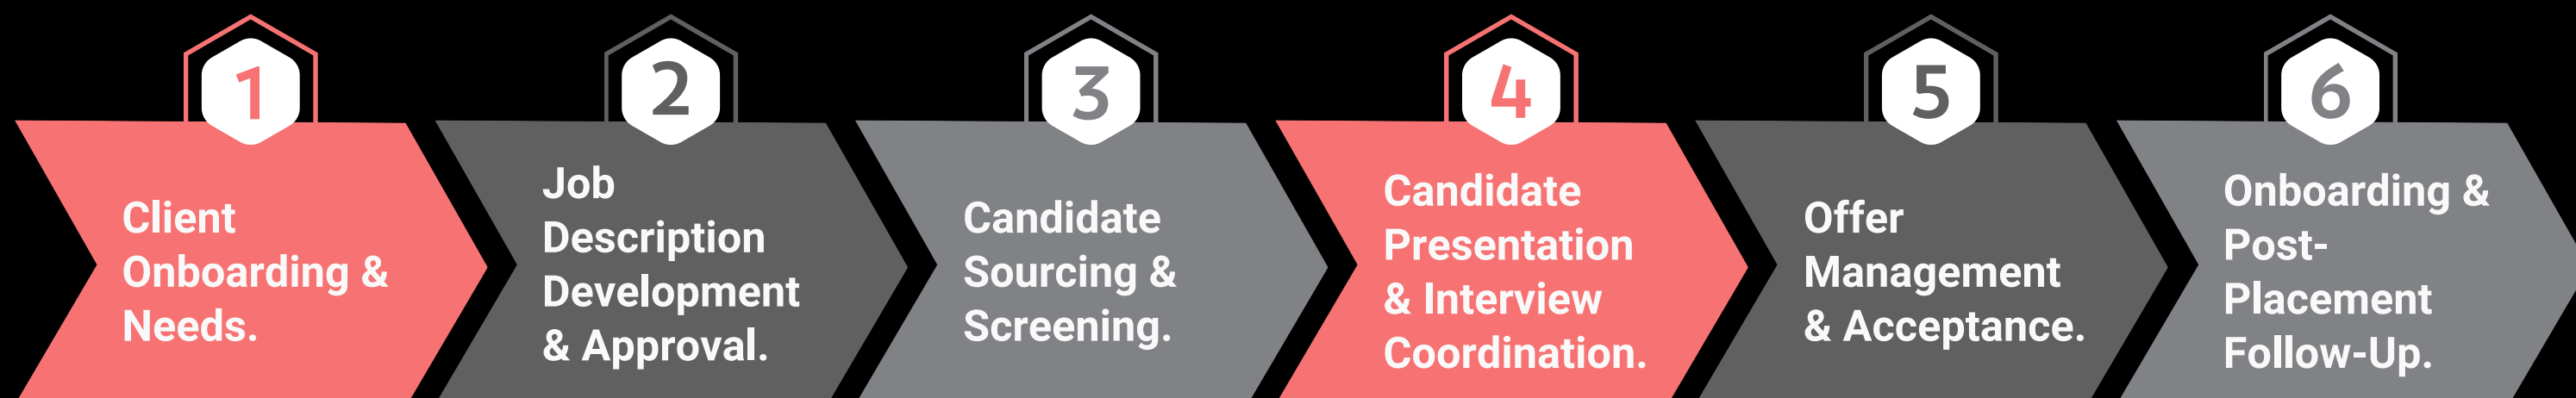

OUR EXPERTISE.

At Whisler, we help innovative companies find the right people to build, scale, and lead in today's most critical technologies—from software and data to mobile, cloud, AI/ML, and beyond. Whether you're a startup or enterprise, we deliver tailored recruiting solutions focused on long-term fit and real impact.

Our approach is ethical, transparent, and people-first. We don't just fill roles—we build relationships that move your business forward.

WHY WHISTLER?

Specializing in ServiceNow and digital transformation, I help high-growth companies find the right tech talent to move faster—and smarter. For over four years, I've connected top talent with companies that truly value them—prioritizing long-term fit, real relationships, and a deep understanding of how tech teams scale.

Beyond recruiting, I contribute to the tech community through ongoing LinkedIn insights and [The 570 Blog](#)—sharing perspectives on hiring, growth, and building in a fast-moving space.

BEYOND RECRUITING.

Let's Connect on LinkedIn

We brought in Thomas to help us find a ServiceNow unicorn, and man did he deliver! He introduced us to an architect who can hang with the best developers and talk like a seasoned consultant. He did it all with an authenticity that's rare in the transactional world of recruiting. No pushy sales pitch or big value statements—just true help. I'm almost annoyed at how refreshing it was working with him. I am looking forward to working with Thomas again.

Nik S.
Director of Strategy
